

PREBUILT SYSTEMS - CUSTOMISED & PERFECT.

## WHAT MAKES OUR EXHIBITOR PACKAGES SO ATTRACTIVE FOR YOU AS AN ORGANISER?

Customised solutions based on our pre-built rental elements are the direct route to successful trade fair participation for your exhibitors. Modularly prefabricated, yet flexible and distinctive, our series stands and exhibitor packages are far removed from conformity. The contemporary combination of design, economy and all aspects of sustainable planning and construction.

### HOW DOES IT ACTUALLY WORK?

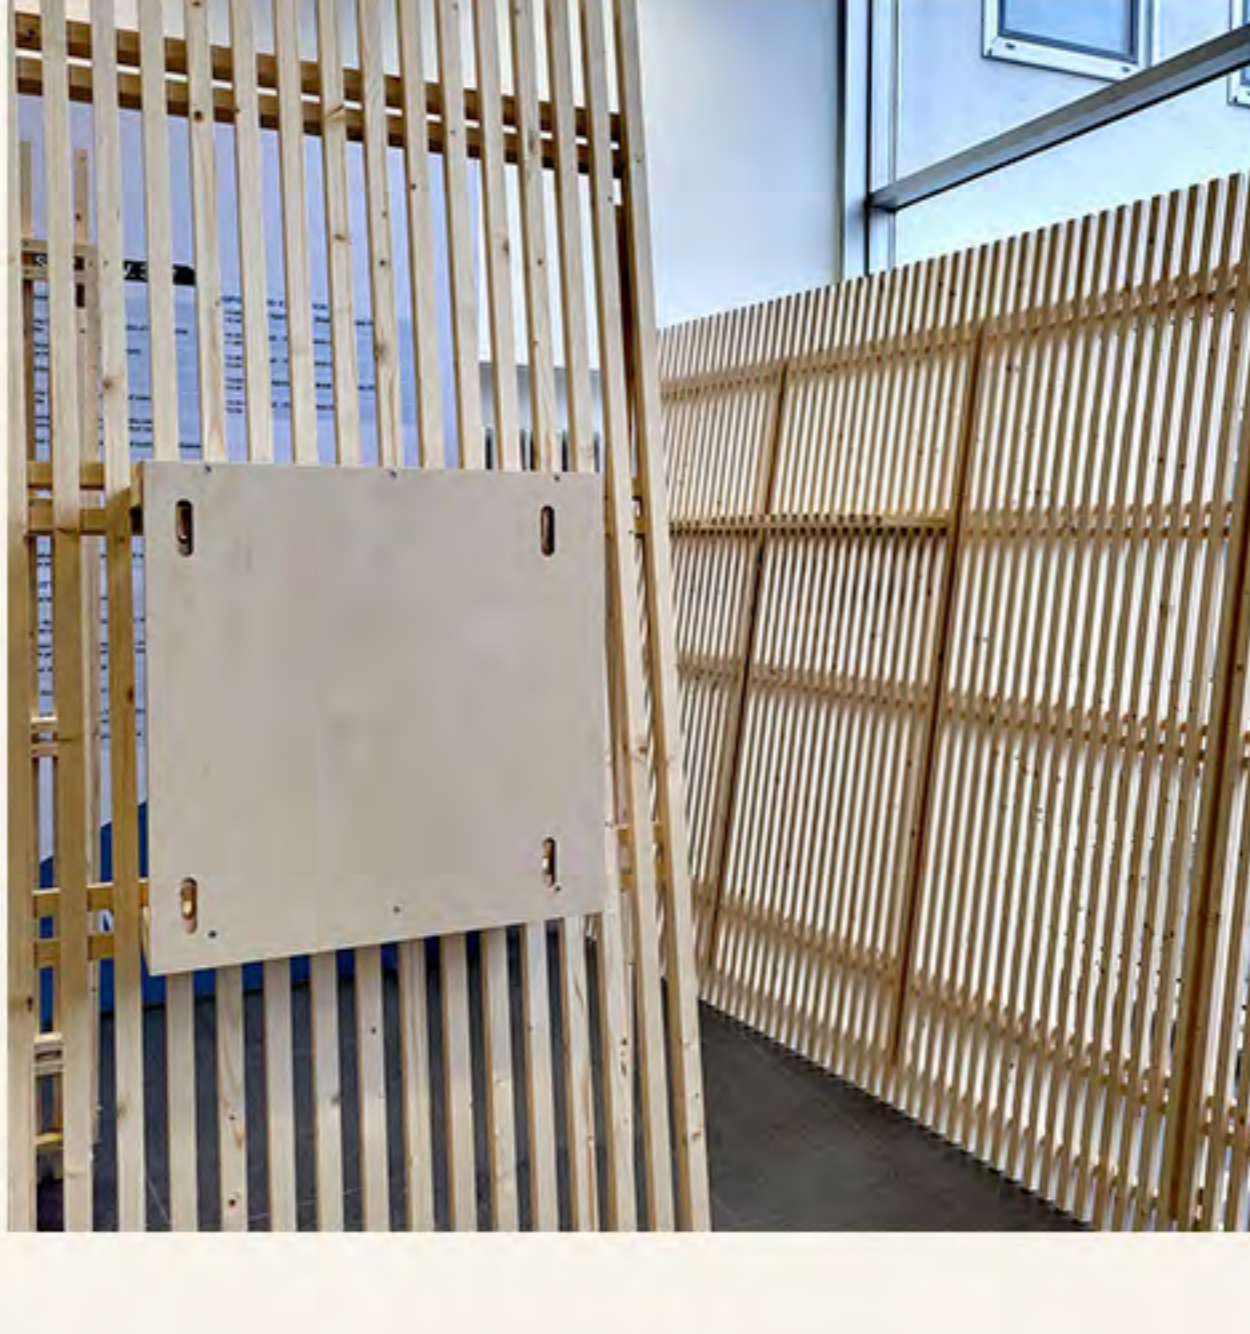

- All functional and design elements can be configured quickly and easily in our database and are available here in a large and clearly organised selection.
- Colour and equipment, product presentation and furnishings can be determined with just a few clicks.
- High-quality graphics and the latest media technology are integrated as required.
- Fully developed marketing, planning and budgeting documents are available for all prebuilt systems and hall concepts.
- As a full-service company, Arno Design manages and customises all stands in direct communication with the exhibitor and can also handle the invoicing of individual orders on request.

### MODULAR DESIGN

Arno 'Prebuilt' systems enable quick and easy assembly. The modular design guarantees flexibility and adaptability to all stand sizes and hall concepts.

### AESTHETICS AND FUNCTIONALITY

With their high design standards and sophisticated functionality, our packages provide an attractive framework for your exhibitors' trade fair participation.

### VERSATILE USE

Extensive equipment options and the perfect look for all industries and events. Our flexible exhibitor packages can be used for product-orientated presentations as well as for networking areas and other areas.

### FIRST-CLASS VISIBILITY

Thanks to the strategically designed design of our units, we offer your exhibitors not only space for their products, but also the opportunity to position their brand in a CI-compliant and visually expressive way.

### FULL-SERVICE SUPPORT

Our experienced team of trade fair professionals supports organisers and exhibitors from planning to implementation. Our job is to ensure that your trade fair runs smoothly and is a success.

### BUSINESS SUCCESS

Plan prefabricated exhibition packages quickly and easily and use them multifunctionally, sustainably and cost-effectively. A win-win situation for organisers, exhibitors and the environment.

## EXHIBITION STAND CONSTRUCTION, ENVIRONMENTALLY FRIENDLY AND INNOVATIVE.

Sustainability and cost-effectiveness are not just buzzwords for ARNO DESIGN, they are an integral part of our corporate DNA. Since the company was founded 30 years ago, we have been impressing our customers with spectacular designs and sustainably planned and realised design concepts. We mainly work with reusable or recycled materials and produce in modular construction for repeated use. All company processes take into account high ecological and ethical standards and are optimised using state-of-the-art work equipment. Fairness towards customers and employees is a matter of course for us. We are currently also certifying our innovative pre-built systems, thus taking a further step in the reorientation of the trade fair industry. Arno Design is always at the forefront when it comes to making the exhibition world attractive, diverse and environmentally friendly.
