

## INCREASE YIELDS, CONSERVE RESOURCES

As a trade fair organiser, how can I offer attractive projects accurately and realise them in line with the market in times of economic uncertainty? Arno Design PRE BUILT is our sustainable full-service solution for all industries and trade fair themes. Modularly prefabricated, but individually optimised for every event. Cost-effective, flexible and available at short notice. Environmentally certified according to all current standards.

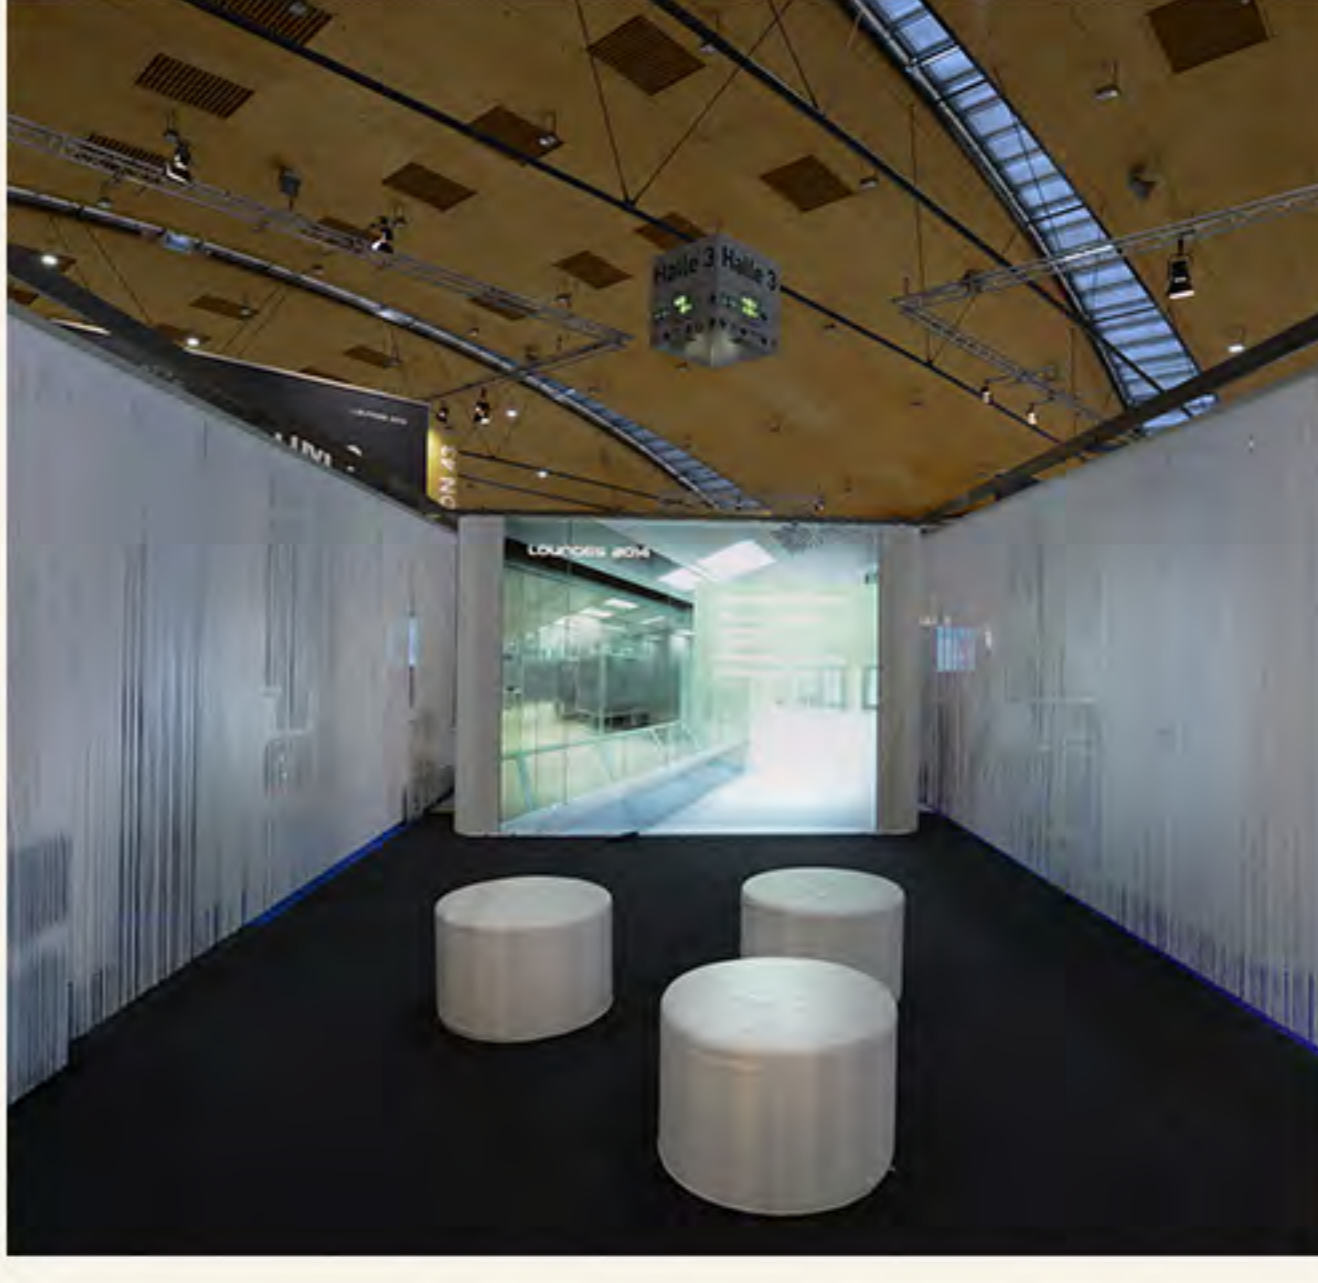

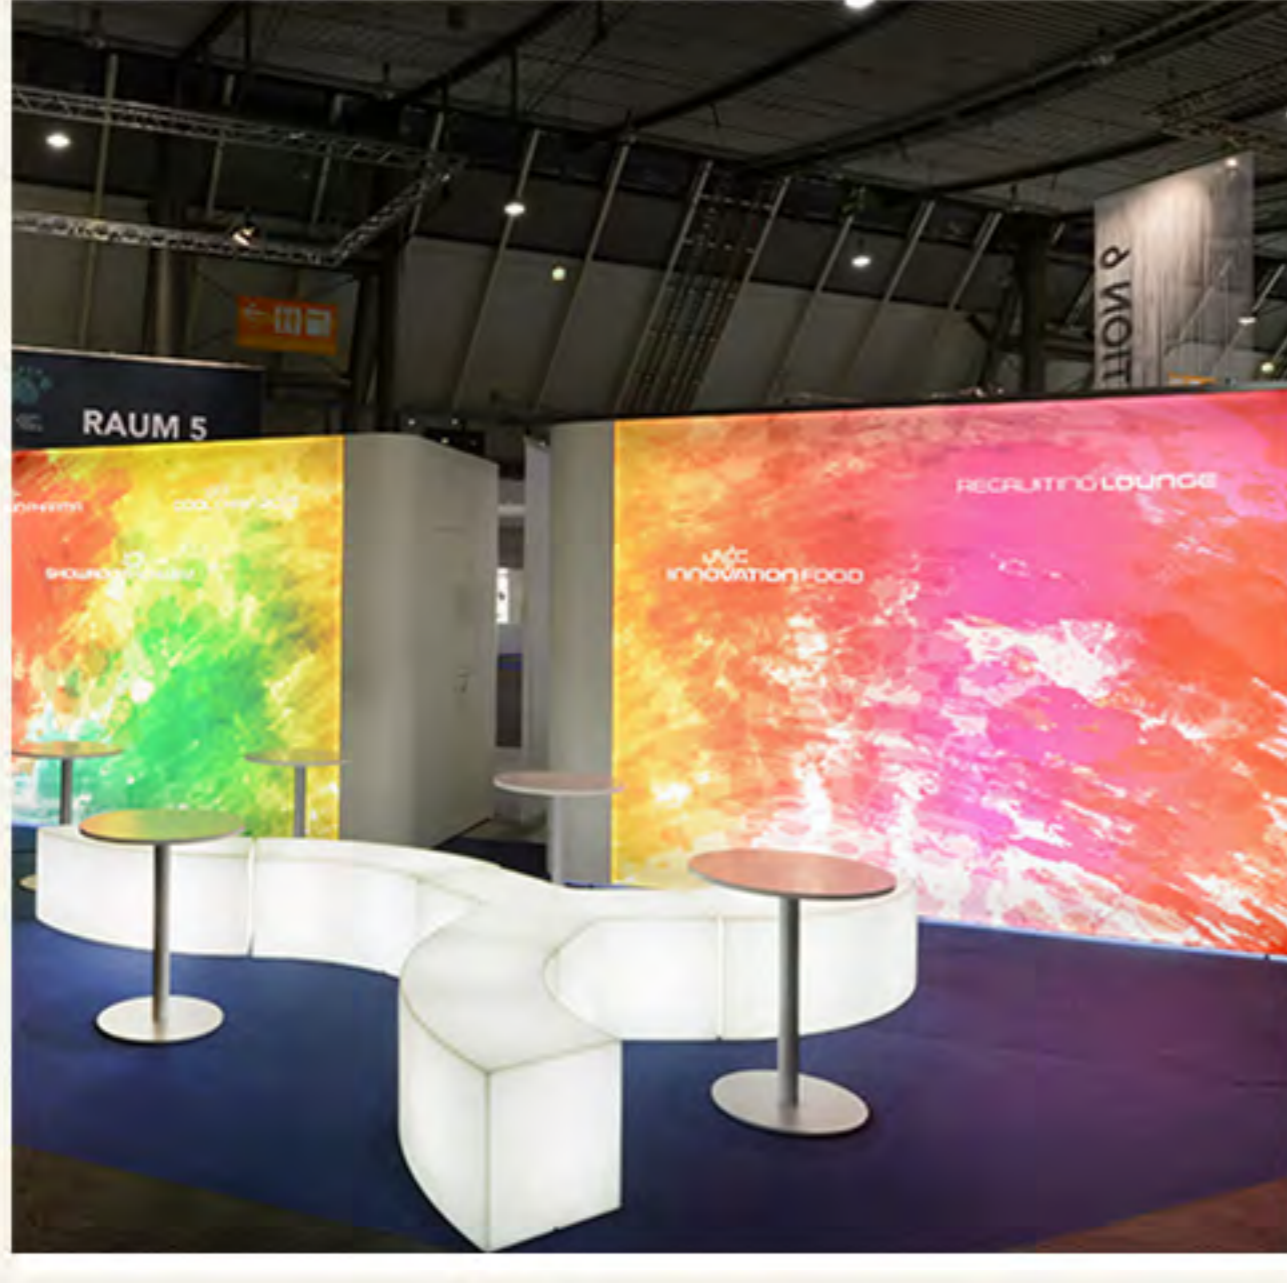

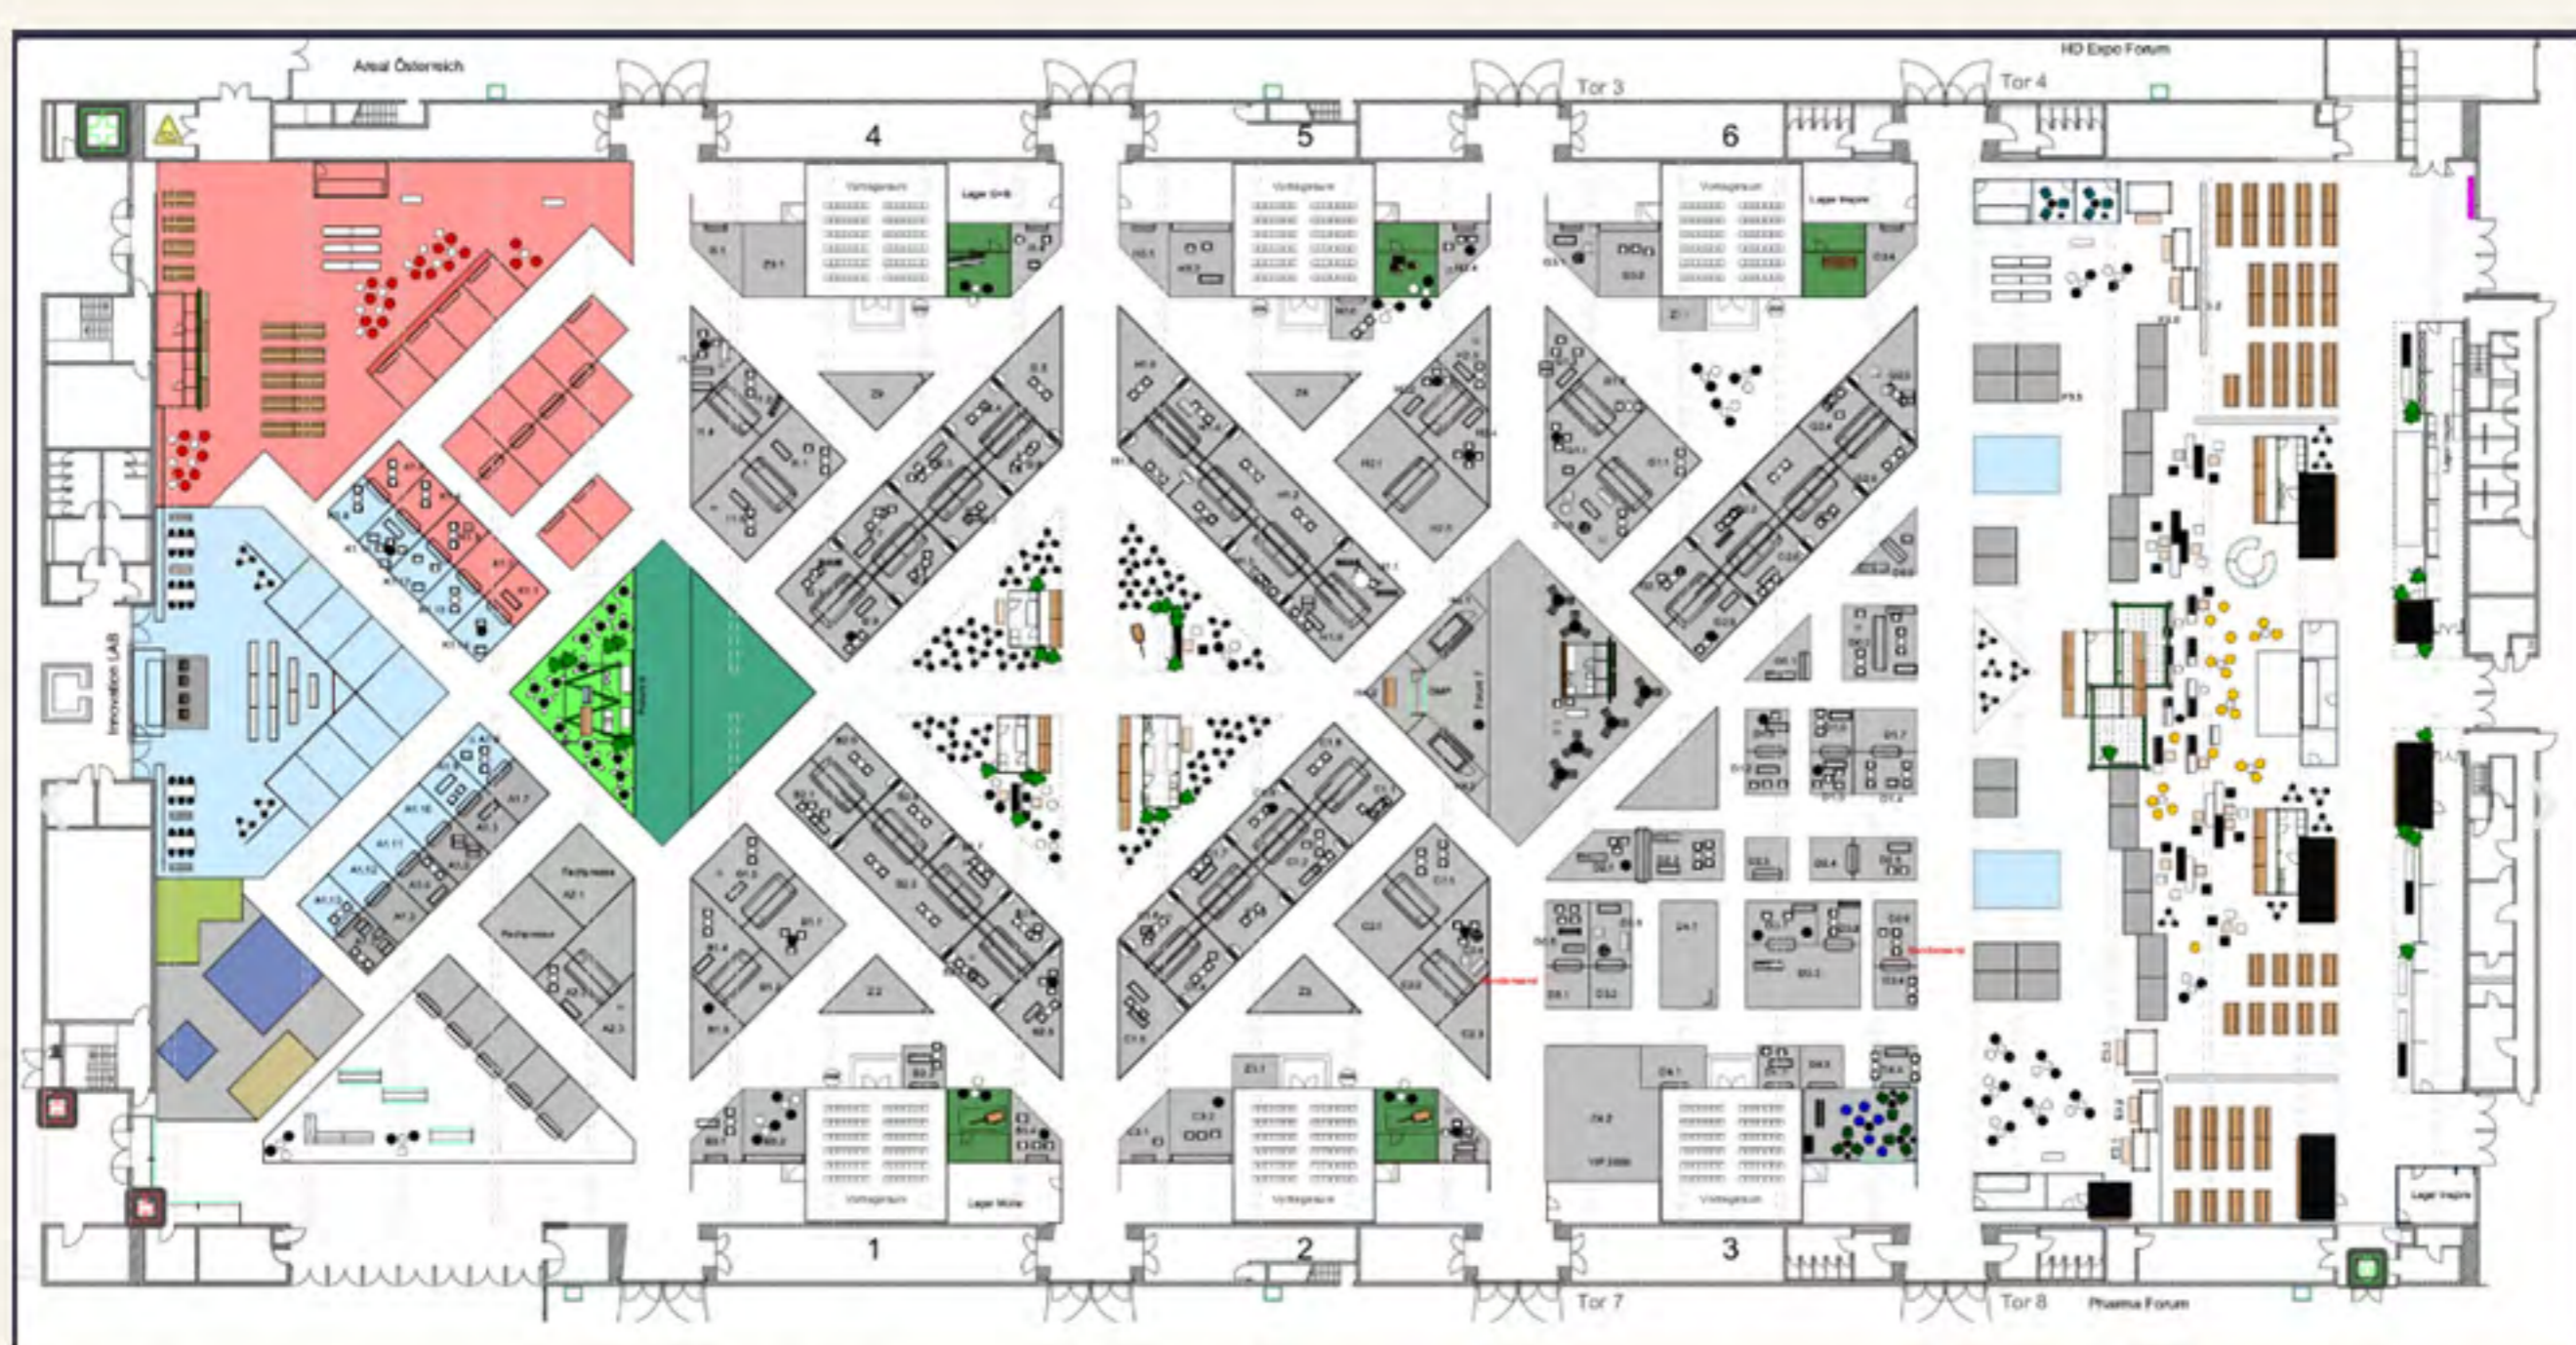

### 1. ORGANISER & PRE-BUILT

With its PRE BUILT concepts, Arno Design has impressively demonstrated how space turnover in the trade fair and event sector can be almost doubled through efficient processes.

With just a few clicks, you can explore the design options for your event. All concept proposals include concrete planning ideas, data sheets, photos and a clear budget structure.

Our project shop offers you an attractive variety of immediately available solutions with convincing advertising materials for your community. This makes the decision easy for undecided exhibitors. The Arno team is fully committed to supporting you in all project phases.

### 3. EXHIBITORS & PRE BUILT

For many companies, creating a striking trade fair presence despite increasingly tight budgets is currently a major challenge. New trade fair formats need to be trialled and demanding customers need to be won over. Short-term strategy changes in marketing and sales are the new normal. With our PRE-BUILT concept, we offer a modern, complete solution for all events. Quick customisation of product presentation, graphics, media technology and furniture; everything can be configured flexibly and individually online via our database. Cleverly and clearly structured, yet child's play to use.
